- \* **Possible Motions to Instruct Conferees.**

## The Daily Quote

"When President Obama announced his National Export Initiative during his State of the Union address last January, some thought he had not gone far enough to boost exports and create jobs. But less than four months later, after the worst recession since the 1930s, exports are set to be a driving force in U.S. economic growth over the next few years while the global economy regains some of the balance it lost during the past decade."

- The Fiscal Times, 5/17/2010
