## The Daily Quote

"The evidence strongly suggests that the Recovery Act has been effective in reviving economic growth. We have seen, for example, a swing from an average GDP decline of 5.9 percent on an annualized basis at the end of 2008 and beginning of 2009 to an average growth rate of 4.3 percent a year later, the largest one-year swing in GDP growth in three decades."

- Peter R. Orszag, Director of the Office of Management and Budget, 6/8/2010
